

### **Trillium Health Partners Confirms More Cases of COVID-19**

Trillium Health Partners (THP) received confirmation of positive COVID-19 test results from two patients who were assessed in hospital on Tuesday, March 11. Both patients were assessed at Credit Valley Hospital's Emergency Department.

The patients presented with symptoms and recent travel history. Given the patients' conditions, it was not necessary for either one to be admitted to hospital. Both individuals were discharged home to follow self-isolation protocols. THP immediately notified Public Health and has been working in partnership with them.

In both cases, the patients were isolated immediately and all necessary precautions were taken to ensure the safety of staff and other patients.

Credit Valley Hospital Emergency Department remains open and clinics and procedures will continue to operate as normal. The hospital remains safe for patients and visitors.
