

Trillium Health Partners Confirms Second Case of COVID-19

Trillium Health Partners (THP) received confirmation of a second positive test result for COVID-19 for a patient who was assessed at the Mississauga Hospital's Emergency Department on Wednesday, March 4. The patient is the spouse of the first reported patient at THP. Initial test results were inconclusive and a positive result was obtained on March 5.

The patient presented with symptoms and recent travel history. The patient was immediately isolated and all proper precautionary measures were taken to ensure the safety of staff and patients. Given the patient's condition, they were admitted to the Emergency Department where they subsequently stayed overnight in isolation. The patient was discharged on March 5 and is now at home in self-isolation and being monitored by Peel Public Health.

Mississauga Hospital remains open and clinics and procedures will continue to operate as normal. The hospital remains safe for patients and visitors.
